

PacLease

Truck Rental and Leasing

TRANSPORTATION SOLUTIONS

QUALITY • PERFORMANCE • RELIABILITY

BUILT ON QUALITY

Through its direct affiliation with Peterbilt, PacLease provides quality trucks customized to your specifications, giving your business the competitive advantage.

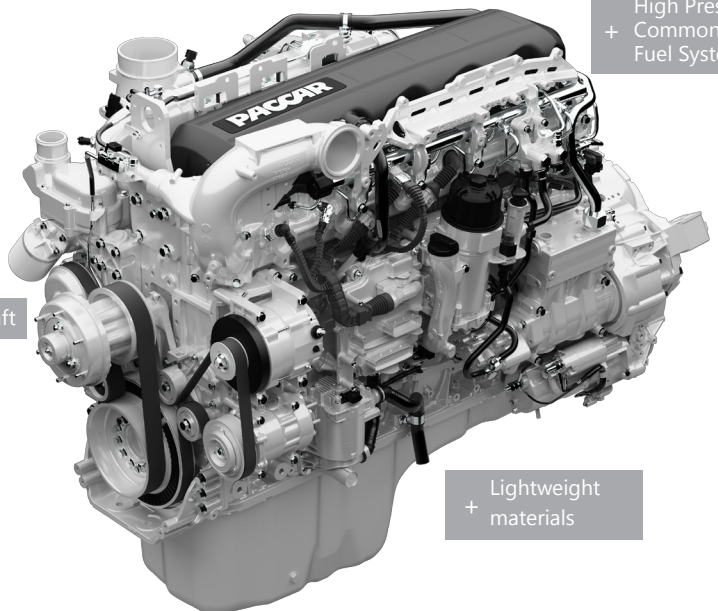

BUILD A SOLUTION

PacLease full service leasing focuses on your fleet while you focus on what's most important: your business.

Each PacLease location offers a variety of transportation services tailored to meet your specific application. We learn about your business and custom design a solution to improve your operation. PacLease services include:

- Full Service Leasing
- Commercial Truck Rental
- Contract Maintenance
- PacTrac® Telematics
- Preventive Maintenance
- PacFuel Savings Program
- Automated Fuel Tax Reporting
- Substitute Rental Vehicles

PACCAR MX-13 *Powered By Quality*

High Pressure
+ Common Rail
Fuel System

+ Single Camshaft

Lightweight
+ materials

The combination of a Peterbilt truck and PACCAR MX-13 engine offers exceptional quality, unsurpassed reliability and proven performance. The PACCAR MX-13 engine is just one of the many engine options PacLease offers that can help your fleet operate at maximum efficiency.

BENEFITS OF PACLEASE

Operational Efficiency. PacLease takes the complexity out of running a fleet. We take care of everything from vehicle specification to maintenance and everything in between. Whether you're spec'ing for fuel efficiency or payload capacity, keeping your fleet running at optimum efficiency is our top priority.

Financial Benefits. Running and maintaining a fleet can be costly and time consuming. Full service leasing eliminates unpredictable repair and maintenance expenses associated with ownership, providing you with a fixed monthly payment through the entire lease. You spend less time and resources managing your fleet and more time managing your business.

Class Pays. Your fleet should reflect your brand and nothing communicates quality as well as a Peterbilt. As a recipient of multiple J.D. Power awards, Peterbilt offers industry leading technology, unmatched driver comfort, and optimum performance. Whether your application is long-haul, heavy-haul, or city delivery, Peterbilt has the right truck for your fleet.

PAC TRAC
Fleet Management

Fleet Management. The next generation of PacTrac Fleet Management is an innovative telematics system powered by PeopleNet. PacTrac can help you better manage your fleet by keeping you connected to your drivers and vehicles. With increased messaging, an onboard event recorder and more real-time diagnostic data from vehicles; PacTrac improves route planning, fuel efficiency and driver performance.

The Right Tools. Trained technicians provide a superior level of maintenance and repairs to help keep your fleet moving. And when it comes to alternative fuel vehicles, no other leasing company has more experience spec'ing and maintaining these vehicles than PacLease. Our expertise allows you to deploy these new technologies, and evaluate the benefits without the financial risk.

Local Service, Global Reach. With locations throughout the United States, Canada, Mexico and Europe, PacLease provides short-term rental, maintenance and other services when and where you need them. Most PacLease locations are locally owned providing you with personable and knowledgeable service.

Truck Rental and Leasing

PacLease delivers transportation solutions designed for your unique business needs. Combined with premium Peterbilt trucks and personalized local service, PacLease truck rental and leasing can help manage your fleet operations and improve your bottom line.
